### Measuring:

Body Width (A) is found by measuring around the widest point and dividing that number in half. If you don't have a flexible measuring tape you can use a piece of string and compare to a ruler.

Shirt Length (B) is measured from the very top of the collar to the very bottom of the shirt hem.

Pant Length - Outer Seam (C) is measured from the top of the waist band to the bottom of the pant cuff.

Pant Length - Inner Seam (D) is measured from the crotch to the bottom of the pant cuff.

Sleeve Length (E) is measured from the top of the shoulder to the very bottom of the sleeve hem.
